## What's New in the Scarlet?

I am at the time providing free version of this program. But in fact, there has been 2 major upgrades to its version. The first version introduced flv (Flash video) which has been converted by me in a present form as m2v format. The second version has brought DIALOG file support which has been almost forgotten. Therefore, I am for sure introducing a version which would have all the features of the first version and also the support of DIALOG file format. This is what Scarlet for m2v v1.4 file: 1. I am using the ideal location of software system directory for files which allows the user to have more options. 2. Advanced functions of video cutting, capturing and displaying. 3. More advanced Search Bar and function in next release version. 4. It has a new auto fixup for video & audio right after playing it. 5. DIALOG support allows you to view & extract both.txt &.msg files. 6. Video to Zipped, Tagged, Txxx formats. 7. Built-in support to play.flv video files and m2v video files as well. 8. Built-in support to play.swf files. 9. Built-in Support to convert.MOV files,.AVI files &.MP4 files in Zip, Tagged & Txxx formats and also to view those formats. 10. Built-in support to extract all DDS, HDR, pfm, jpg, bmp files in TXT, CSV, HTML, XML, Zip, RTF, OWL, PPT, HTML, PPT, MBOX, RTF, PPT, TEMP, TXT, CSV, ODG, MBOX, RTF, PPT, AUTO & TEXT format. 11. The DIALOG Support in this version allows the user to view and extract all.txt and.msg files. What's New in This Release: The last major version was released in 1.0.4 but due to some user demands, I made some updates to it. So this version includes DIALOG support which allows you to view.txt,.msg,.dbx &.m3u files. You can even extract files from.dbx and.txt. Support for DDS,.pfm,.jpx &.jpg files to convert in Zip, Tagged
